

M-25

AXIAL AIR MOVER WITH BUILT-IN OZONE GENERATOR

XPOWER's M-25 Axial Air Mover features the power of high volume extended focused air coverage and a brushless DC motor for ultimate energy efficiency and a powerful commercial ozone generator for penetrating ozone coverage like no other unit on the market. The M-25 air mover is perfect for sanitizing and deodorizing medium to large areas such as hotel suites, offices, homes, basements, and more. Utilizing a commercial grade ozone generator, the M-25 axial can effectively build-up and spread ozone throughout a treatment area for a full deep cleansing effect. Ozone treatment has been scientifically studied for its disinfecting properties to assist in the elimination of viruses, bacteria, and strong odors. Featuring an Always-On setting, a 3-hour Set-N-Forget timer, a separate on/off toggle switch for the ozone generator, and an ozone indicator light for safety. With the ability to turn the ozone generator off independently, you can utilize this unit as a standard air mover for cooling, ventilating, and drying purposes. Dual purpose air mover/ozone generator, this is truly unique to the market. Ozone treatment should only be applied in an unoccupied space free of people, pets, and plants. Always remember to ventilate a treatment area before re-entering.

SPECIFICATIONS

- Ozone generator with built-in ozone indicator light for safety
- Powerful torque packed Brushless DC motor for extended focused airflow
- 3 hour timer, Always-On Setting, and independent power switch for ozone generator
- Precise variable speed and 360* rotational stand
- 6 ft. power cord with wrap around cord management design
- Safely eliminate smoke, food, mildew and garbage odors and reduce air born particles such as dust and mold spores
- Supports in Sanitizing: mold, bacteria, viruses, and VOCs
- Medical studies have shown Ozone to break down and destroy viruses
- Great for hotel suites, large meeting rooms, restaurants, apartments, fire and flood restoration and more
- We recommend you use this unit in an unoccupied room, it can be harmful and dangerous if used while occupied with people and pets

Model No	M-25
Voltz/Hertz	115V/60z
Motor	115 W
Power	1.2 Amps
Rated Airflow	1450 CFM
Speeds	Variable Speed
Ozone Generator	5,000 mg/hr
Cord Length	6 ft.
Operating Position	360° Rotation
3 Hour Timer	Yes
Stackable	Yes
Unit Weight	12.6 Lbs.
Unit Dimensions (LxWxH)	15.4x8.8x17.2 in.
Housing	ABS
Thermal Protection	Yes

PRODUCT FEATURES

- Industrial Ozone Generator
 - Ozone Indicator Light
 - On/Off Switch & 3 Hr Timer

- Precise variable speed control

- Brushless DC Motor for Maximum Energy Efficiency
- High Torque Motor + Deep Pitch Fan Blade for Maximum Extended Airflow
- Wrap Around Cord Design
- Fully Installed Rack / Stand Allowing 360° Angle Rotation
