

# LOWTEMP DETERGENT

## Warewash Detergent for Commercial Dishmachines

A high quality liquid designed for top performance in low or high temperature commercial dishwashing machines. Provides excellent grease removal and rinsing characteristics which will produce superb dishwashing results in one pass, even under difficult operating conditions. Contains a special Polymer Booster, producing superior results over ordinary detergents even at very low concentrations. Delivers excellent use-economy.

### Directions for Use

This product is designed to be dispensed with equipment installed and/or approved by your Service Representative. Performs well at concentrations as low as 1 ounce per 8 gallons of water under normal operating conditions. However, problems such as excessive water hardness or mechanical problems may require a slightly higher concentration. Ideal wash temperatures for this product range from 140° to 160°F. Wash temperatures as low as 120°F will produce acceptable results, although slower drying times will occur. **For machine use only - not for hand dishwashing.**

### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from [www.crown-chem.com](http://www.crown-chem.com).
