55 Gallon Drum	List	1	2-5	6-10
Stock# A20629955PA	3359.95	2688.40	2499.75	2349.60

A VOC compliant, non-selective soil sterilant. Controls weeds and grasses by contact and root action.

Eliminator III Plus contains two active ingredients: **Bromocil**, a broad spectrum herbicide, which controls weeds through root contact and gives season-long residual control, and **2-4-D** in a solvent base, which attacks weeds through foliage and gives immediate weed burn-down. This saves time, labor and money spent on re-application.

Contains NO Glyphosate...a known carcinogen.

This weed killer is particularly effective in areas where undesirable vegetation is tall and well-established. Eliminator III Plus requires no mixing or measuring. Just apply with a sprinkling can or sprayer and the job is done for the summer. Just wet and forget! Eliminator III Plus is classified as a general use product and may be applied by unlicensed personnel.

Coverage: Annual weeds: 1-2 gal / 1000 sq. ft.
Perennial weeds: 3-5 gal / 1000 sq. ft.
